Our pickup locations are on private property. The owners have made their property available to us as a courtesy. Please be considerate and pick up your vegetables during the scheduled times. The owners are not responsible for holding your boxes after the scheduled pickup times.

Checkoff Sheet. Each week, there will be a checkoff sheet on a clipboard at the pickup location. When you pick up your vegetables, please check off the space next to your name on the clipboard.

Box Type. At the pickup location, all of our vegetable boxes will be labeled with a delivery frequency and box size (e.g., "Weekly Large", "Biweekly Small", etc.). If you are not sure which box you should take, it will be printed each week next to your name on the checkoff sheet at the pickup location. Note that you are one of several members receiving a box with your label. Each week you should only take one box, unless you have specifically scheduled yourself to receive multiple boxes. **Please be very, very careful to take a box with the correct label. This will ensure that you, and the other members at your pickup location, receive the proper vegetables.**

Returning Your Box. You are welcome to carry your vegetables home each week in the box we provide. However, please break down the box and bring it back with you to the pickup location when you return to pick up your next delivery. Instructions for breaking down your box are available at <http://www.twoonionfarm.com/BoxBreakdown.pdf>.

Swap Box. Each week we will leave a swap box at the pickup location. You can exchange as many vegetables as you want from your box for an equivalent amount of other vegetables from the swap box. For example, if there are beets in your box, you could exchange them for broccoli from the swap box. We will post guidelines on the swap box as to what constitutes an 'equivalent' exchange. Please be reasonable and try not to take more from the swap box than you put in. The swap box will be conspicuously marked. You are welcome to exchange your vegetables for items from the swap box, but do not exchange your vegetables for items from other members' boxes.
